

PORT CITY ATTRACTIONS

Mobile's prize scenic package, a weekend vacation of variety, never looked better than the floral pageantry awaiting thousands of visiting Alabamians this spring.

The March-April agenda features the famous Azalea Trail, America's Junior Miss Pageant, historic homes and forts, newly-opened attractions like Alabama Historical and the Battleship Alabama.

The trail stretches through 35 miles of azaleas blooming beautifully under massive live oaks and sprawling around antebellum homes.

Long Gardens, one of the must-stop places along the trail, offers ten acres of landscaped ravines almost covered with azaleas. Towering pines shield the blossoms while pools and brooks mirror the trees and flowers.

Oakleigh, an impressive mansion with a large flowering lawn, and Clarke's Gardens are two other important stops along the way. World renowned Bellin-gard Gardens climaxes this floral tour.

America's Junior Miss Pageant, nationally televised in color, gets underway on March 22. The week-long event sees the nation's outstanding high school senior girls compete for scholarships and the coveted winner's crown.

Opened only last summer, Alabama Historical on Battleship Parkway has quickly become a popular attraction. Historical recreates 500 years of Alabama's heritage with "action, sound, color and motion." The three dimensional murals, displays and recordings focus on the Fort Mims massacre and the battles of Mobile Bay and Spanish Fort.

Historama's next door neighbor, the Battleship Alabama, smashed all attendance figures in 1965 for newly-opened tourist attractions in the South.

A new and exceptionally mild hybrid cucumber is called "burp-less." Certain vegetables just don't seem to suit certain stomachs. Thus, it's news when a variety of vegetable is found which is so mild and bland that even tender tummies can tolerate it and their owners enjoy it. Such a vegetable is Burpless, a first generation hybrid cucumber. It may be grown in many climates, even hot ones. The vines may be trained upward on fence or trellis as well as allowed to spread outward on the ground.

EPIDEMIOLOGY

Epidemiologists deal with disease in the mass rather than in the individual. Epidemiology is defined as that field of science dealing with the relationship of factors which determine the frequencies and distributions of an infectious process, a disease, or

a physiological state in a human community. This science, involved with the mass phenomena of diseases and human defects, is one of the important weapons in the worldwide fight against disease and disability.

The process of solving the mysteries of a disease may be likened somewhat to the solution of a detective mystery. The epidemiologist asks himself certain key questions when investigating a killing or crippling disease. Why does this disease strike a particular population or a particular age group, or sex, or vocational group, or urban or rural group? Why does it strike with particular severity or comparative mildness or not at

all? Why does it strike regularly or infrequently? The answer may be found within the borders of the country where he starts his investigation or clues may lead him for afield. One of the uses of epidemiology is to discover pop-

ulations or groups with high rates of disease and with low, in the hope that freedom from disease can be pinpointed. Epidemiologists have been concerned with such major world-wide epidemics as cholera and

smallpox. They are also investigating Kuru, a strange and rapidly fatal disease of the nervous system discovered in an isolated population living in the interior of New Guinea.

NEW TROY FOOTBALL COACH, Billy Atkins, right, is pictured talking football with Kasper Anderson, left, and Bill Pierce after the Monday meeting of the Elba Rotary Club. Atkins was the guest speaker and he entertained the club members with stories of well-known pro football players that he had played with during his pro days and also told of prospects of football at Troy State. Atkins also set a scoring record at Auburn in '57 that still stands. Bill Pierce was in charge of the program at this meeting.

ENTERPRISE GIRL Honored For Cooking
Shelia Smith, an Enterprise High School senior who won first place in the County Beef Cook-off Contest, went on to Montgomery to take third place and a \$100 prize in the state finals.
Thirty-eight girls from thirty-eight counties met at the Cattlemen's Building Friday, March 18th, to compete for first, second and third places.
Shelia was accompanied to Montgomery by Coffee County's Cow Belle President, Mrs. Wallace Purvis. After the dishes were prepared and judged, they were carried to the Jefferson Hotel.
Shelia's winning recipe was Beef Wellington which was printed in this paper when she won the county cook-off.

Bids Ask On Jr. College Building

It was jointly announced by Governor Wallace, Chairman of the Public School and College Authority and Senator W. Ray Lolley of Enterprise, Alabama, that bids will be received at 2:30 p.m. in the Council Chamber at the City Hall of Enterprise, Alabama, for a Health Building for Enterprise Junior College. Senator Lolley stated that the Building along with the Administration Classroom Building, Science Building, and Library now nearing completion will bring the building program well beyond the actual student capacity.

Elliott Visits Coffee County Wednesday

Carl Elliott, former U.S. Representative and a current candidate for governor, brought his campaign into Elba and Coffee County Wednesday afternoon and repeated his promises to upgrade the educational system, pay a \$25,000-age pension every Friday and to get Alabama "back" into the Union.

A FEATURE that has become of national interest and attention is the pre-dawn, open-air setting of the ancient Indian Mounds in Mount State Park at Moundville each Easter Sunday. "The Road to Calvary" will be presented in pageant by the Moundville Methodist Church in cooperation with the other churches of the area and will present the dramatic story of Christ's last week on earth enacted in a natural amphitheater formed by three of the mounds at Mount State Monument. The ceremony is very impressive and strictly religious. The pageant will be held where many centuries ago these ceremonial mounds were used by the Indians as a place of worship. Thousands of baskets of soil were carried by hand to build

porator until it becomes heavy syrup. Thanks.

IF YOU KNOW of anyone who has not registered to vote encourage them to do so and be able to vote for the candidates of their choice in the elections this year. The Democratic primaries are being held on May 3 and 31 and the general election is being held in November. This is one of the most unusual election years Alabama has ever experienced and everyone who is eligible should get themselves registered so they can vote. No one has to pay poll taxes any more so that is not a reason for failing to register nor do you have to be able to read and write. Just register - that is all you have to do.

IF IT MAKES you happy to get all excited about any certain candidate and getting all emotional and not knowing or caring about issues then by all means enjoy that little spasm of pleasure for after you get the candidate elected your emotions will cool down rapidly and you can't enjoy it any more, and you may wonder why you were so excited.

THERE IS A political "change" developing in the air, apparently. Things are beginning to take on a curious appearance and just anything may be getting ready to happen May 3rd and May 31st. I'm thinking there will be some surprises. May 3rd, it's interesting and actually exciting. If I was a betting person I would take a chance on what looks possible to most people.

AND DON'T count Jim Folsom out. He is now considered as in second to third place but as once before he has a silent vote behind him and you know what happened when that happened before. The way I see it if he should happen to be in the run-off and then the nominee we will continue to have a Democratic governor the next four years. Otherwise we will have a Republican governor, is my prediction.

IF THE November general election was being held today Jim Martin looks like a shoo-in. A lot of people are looking for an escape from what we have and he is it. He is fresh, clean and new and well liked. He is a good business man and people have confidence in his ability. It looks like Jim Martin will be Alabama's Governor the next four years.

MACK AND I plan to be in all sections of Alabama within the next few weeks and especially tour North Alabama. We may be able to tell you something of the trend and the direction that is apparently developing in politics when we get back.

THE FOLLOWING was given to me last week entitled "Frogs and Frequent". There's an old story that says you can't kill a frog by dropping him in boiling water. He reacts so quickly to the sudden heat that he jumps out before he's hurt. But if you put him in cold water and then warm it up gradually, he never decides to jump till it's too late. Then he's cooked.

"Men are just as foolish,

Take away their freedom overnight, and you've got a violent revolution. But steal it from them gradually under the guise of "security", "peace", or "progress" and you can paralyze an entire generation.

"The tragedies of history are always repeated by those who refuse to learn them. To seek guidance from the past is not 'turning the clock back' as we are so often told. It is merely a good way to keep out of hot water."

EASTER will soon be here again. And, though few may know it, the theme of Easter is older than Christianity itself. In the modern world, it celebrates the Resurrection of Christ. But similar rituals were held in times long before He lived. Rituals of rebirth, historians tell us, were common in the ancient civilizations.

Now Easter is greeted with sunrise services, and these date back to the medieval custom of praying while the sun begins its climb into the heavens. One legend holds that the rays of light which break through the clouds on Easter morning are angels dancing for joy. This is, indeed, a happy time, even as it is a time for thoughts of those aspects of life which

go far beyond the mere material.

In many communities, elaborate Easter parades are held, and ladies appear in their new gowns - a flamboyant Easter hat has become something of a tradition. And then there is one of the most charming of customs - the Easter egg hunt for children. Easter bunnies, the eager children are told, laid the eggs. And this, too, has its origin in antiquity - in pre-Christian times the rabbit was a symbol of abundant new life in the spring season.

Easter thus combines a rich mixture of laughter and solemnity. Both are good - both are needed by the soul of man. Let all enjoy this Easter - and, in enjoying it, pray that the spirit of He who was resurrected from the dead will some day rule this world.

IT IS BEING talked around, in fact, one person told me that he would cast a vote for Richmond Flowers in the first primary hoping to get him in the second and then the nominee for the Democratic candidate.

THIS NOTICE IS MADE AVAILABLE TO INFORM YOU ABOUT THE DESEGREGATION OF OUR SCHOOLS. KEEP A COPY OF THIS NOTICE. IT WILL ANSWER MANY QUESTIONS ABOUT SCHOOL DESEGREGATION.

1. DESEGREGATION PLAN IN EFFECT
The Elba City public school system is being desegregated under a plan adopted in accordance with Title VI of the Civil Rights Act of 1964. The purpose of the desegregation plan is to eliminate from our school system the racial segregation of students and all other forms of discrimination based on race, color, or national origin.

2. THIRTY-DAY SPRING CHOICE PERIOD
Each student or his parent, or other adult person acting as parent, is required to choose the school the student will attend next school year. The choice period will begin on April 1, 1966 and close April 30, 1966.

3. EXPLANATORY LETTERS AND SCHOOL CHOICE FORMS
On the first day of the choice period, an explanatory letter and this notice will be sent by first-class mail to the parent, or other adult person acting as parent, of each student then in the schools who is expected to attend school the following school year. A school choice form will be sent with each letter, together with a return envelope addressed to the Superintendent. Additional copies of the letter, this notice and the choice form are freely available to the public at any school and at the Superintendent's office.

4. RETURNING THE CHOICE FORMS
Parents and students, at their option, may return the completed choice forms by hand to any school or by mail to the Superintendent's office, at any time during the 30-day choice period. No preference will be given for choosing early during the choice period. A choice is required for each student. No assignment to a school can be made unless a choice is made first.

5. CHOICE FORM INFORMATION
The school choice form lists the names, locations and grades offered for each school. The reasons for any choice made are not to be stated. The form asks for the name, address and age of the student, the school and grade currently or last attended, the school chosen for the following year, the appropriate signature, and whether the form has been signed by the student or the parent. The parent, or other adult person acting as parent, who identifies the student and the school he wishes to attend will be deemed just as valid as if submitted on the choice form supplied by the school system. The names of students and the schools they choose or are assigned under the plan will not be made public by school officials.

6. COURSE AND PROGRAM INFORMATION
To guide students and parents in making a choice of school, listed below, by schools, are the courses and programs which are not given at every school in this school system.

Elba High School
Vocational Trade and Industrial Education
Vocational Office Occupations

7. SIGNING THE CHOICE FORM
A choice form may be signed by a parent or other adult person acting as parent. A student who has reached the age of 15 at the time of choice, or will next enter the ninth or any higher grade, may sign his own choice form. The student's choice shall be controlling unless a different choice is exercised by his parent before the end of the period during which the student exercises his choice.

8. PROCESSING OF CHOICES
No choice will be denied for any reason other than overcrowding. In cases where granting all choices for any school would cause overcrowding, the students choosing the school who live closest to it will be assigned to that school. Whenever a choice is to be denied, overcrowding will be determined by a uniform standard applicable to all schools in the system.

9. NOTICE OF ASSIGNMENT, SECOND CHOICE
All students and their parents will be promptly notified in writing of their school assignments. Should any student be denied his choice because of overcrowding he will be promptly notified and given a choice among all other schools in the system where space is available.

10. STUDENTS MOVING INTO THE COMMUNITY
A choice of school for any student who will be new to the school system may be made during the spring 30-day choice period or at any time thereafter. If a student enrolls in school, an explanatory letter, this notice and the school choice form will be given out for each new student as soon as the school system knows about the student. At least seven days will be allowed for the return of the choice form when a choice is made during the spring 30-day choice period. A choice must be made for each student. No assignment to any school can be made unless a choice is made first.

11. VIOLATIONS TO BE REPORTED
It is a violation of our desegregation plan for any school official or teacher to influence or coerce any persons in the making of a choice or to threaten any person with penalties or promise favors for any choice made. It is also a violation of Federal regulations for any person to intimidate, threaten, coerce, retaliate or discriminate against any individual for the purpose of interfering with the free making of a choice of school. Any person having any knowledge of any violation of these prohibitions should report the facts immediately by mail or phone to the Equal Educational Opportunities Program, U.S. Office of Education, Washington, D.C., 20202 (telephone 202-962-0333). The name of any person reporting any violation will not be disclosed without his consent. Any other violation of the desegregation plan or of these regulations, or where the opportunity is not available to all students without regard to race, color or national origin.

12. ATTENDANCE ACROSS SCHOOL SYSTEM LINES
No arrangement will be made, or permission granted, by this school system for any students living in the community it serves to attend school in another school system, where this would tend to limit desegregation, or where the opportunity is not available to all students without regard to race, color or national origin.

13. ALL OTHER ASPECTS OF SCHOOLS DESEGREGATED
All school-connected services, facilities, athletics, activities and programs are open to all on a desegregated basis. A student attending school for the first time on a desegregated basis may not be subject to any discrimination or waiting period for participation in activities and programs, including athletics, which might otherwise apply because he is a transfer student. All transportation furnished by the school system will also operate on a desegregated basis. Facilities will be desegregated, and no staff member will lose his position because of race, color or national origin. This includes any case where less staff is needed because schools are closed or enrollment is reduced.

14. CHOICES ONCE MADE CANNOT BE ALTERED
Once a choice has been submitted, it may not be changed, even though the choice period has not ended. The choice is binding for the entire school year to which it applies, except in the case of (1) compelling hardship, (2) change of residence to a place where another school is closer, (3) the availability of a school designed to fit the special needs of a physically handicapped student, (4) the availability at another school of a course of study desired by the student, which is not available at the school chosen, (5) the availability of a school which is not available at the school chosen.

15. ALL OTHER ASPECTS OF SCHOOLS DESEGREGATED
All school-connected services, facilities, athletics, activities and programs are open to all on a desegregated basis. A student attending school for the first time on a desegregated basis may not be subject to any discrimination or waiting period for participation in activities and programs, including athletics, which might otherwise apply because he is a transfer student. All transportation furnished by the school system will also operate on a desegregated basis. Facilities will be desegregated, and no staff member will lose his position because of race, color or national origin. This includes any case where less staff is needed because schools are closed or enrollment is reduced.

16. ATTENDANCE ACROSS SCHOOL SYSTEM LINES
No arrangement will be made, or permission granted, by this school system for any students living in the community it serves to attend school in another school system, where this would tend to limit desegregation, or where the opportunity is not available to all students without regard to race, color or national origin.

17. VIOLATIONS TO BE REPORTED
It is a violation of our desegregation plan for any school official or teacher to influence or coerce any persons in the making of a choice or to threaten any person with penalties or promise favors for any choice made. It is also a violation of Federal regulations for any person to intimidate, threaten, coerce, retaliate or discriminate against any individual for the purpose of interfering with the free making of a choice of school. Any person having any knowledge of any violation of these prohibitions should report the facts immediately by mail or phone to the Equal Educational Opportunities Program, U.S. Office of Education, Washington, D.C., 20202 (telephone 202-962-0333). The name of any person reporting any violation will not be disclosed without his consent. Any other violation of the desegregation plan or of these regulations, or where the opportunity is not available to all students without regard to race, color or national origin.

YOUR Health

"Your Health" is presented by your physician as a health service of The Medical Association of the State of Alabama.

CHRONIC ILLNESS

Two fifths of the entire population of the United States have some chronic condition. Even so, only one out of every seven men at ages 45 or 64 and only one out of every eight women at these ages are limited in their major activities by a chronic condition. At 65 and over, the percentage of limitation becomes higher.

Chronic illnesses cause approximately two thirds of all deaths in this country. These deaths are caused chiefly from heart disease, kidney disease, nervous or mental disorders, tuberculosis, cancer, diabetes, asthma, or arthritis.

Chronic conditions affect persons of all ages and reach their peak of prevalence at the older ages. More than one sixth of the population under 15 and two fifths of the people at 15 to 44 years of age have at least one chronic condition. The proportion increases to three fifths at ages 45 to 64 and to slightly over three fourths at 65 and over. However, limitation due to chronic condition remains relatively small.

Approximately one third of all people with limitation of major activity are reported to have a chronic condition of the circulatory system. Among males, the proportion is the most frequently reported condition. Arthritis and rheumatism rate second in prevalence among males, but among females these conditions outrank heart disease in causing limitation.

Chronic conditions of the digestive system in both sexes follow in order of importance. Many chronic diseases are now controllable, and new medical discoveries are continually reducing them.

Bible Presented To School

A beautiful gift Bible was recently added to each library of the Elba High School and the Elba Elementary School by the following firms of Elba:

The Peoples Bank, Johnson's OK Tire Store, Standard Oil Company, M. Lee, Agent; Whitman Drug Company and Windham Power Lifts.

On behalf of the students and faculties of these schools, Miss Clara Taylor, school librarian, expresses appreciation to these companies for adding these valuable inspirational volumes to the school's library collections.

Adult Education Encouraged

According to the 1960 Federal Census, there were 1,976,723 persons in Alabama who were 18 years of age or older. Of this number, 854,696 or 43.2% had not completed the 8th grade level of education. Do you fall in this group? If you have a wonderful opportunity to raise your educational level, it is too late to enroll in one of the Adult Basic Education classes in Coffee County. Lure you to take advantage of this opportunity that is yours. There is no cost to the student. Do you have two hours a night for two nights a week that you could devote to a more worthwhile cause? We need you in these classes.

At present we have 62 enrolled in level 1-4 and 73 in level 5-8. Our attendance was off for the month of February, but we still had an average of 74.9 students each night.

Many of the adults in level 1-4 could neither read nor write, but today they can write their name and read simple books.

This is a Federal Government Project. As a citizen of Coffee County you will encourage your neighbor to enroll in one of these classes if they fall in this grade level!

Harvey Locklar, Supervisor of Coffee County Adult Basic Education.
